What did they say about IFW'19

Nigel Verdon,
CEO
Railsbank

This event is fantastic! The organization is unbelievable. As probably the most attention to detail and well organized event I've been to for the past five years.

Nienke Wichers Hoeth,
Managing Director
Accenture

I spoke with the people from US, Singapore, Dubai, basically around the world, all gathering here and sharing their thoughts. It's quite interesting. I really enjoyed it.

Conan French,
Senior Advisor
Institute of International
Finance

Exciting to see all the banks and fintechs are coming together and the full ecosystem to talk about the new technologies, new products and services they're building and bringing to market.

Hugh Terry,
Founder
The Digital Insurer

It's my first time in Istanbul and the first time I've been to a KOOPHub event. It really exceeded my expectations. I really liked the fluidity between formal, informal sessions and startup presentations. Most of the people is easily getting connected with each other and having good conversations.
